

Surveys with questions on adolescents and HPV

<p>NIS Teen 2008 (The NIS is a list-assisted random-digit-dialing telephone survey followed by a mailed survey to children's immunization providers that began data collection in April 1994 to monitor childhood immunization coverage. Parents answer questions about children's vaccination histories)</p>	<p>NSFG (Child-related questions asked to parents about their children) from document NSFG_2006-2008_Y3_FemaleH_CRQ [PDF - 92 KB]</p>	<p>NHIS 2010 Child Survey Questionnaires (One sample child for each selected household is used. Individuals under 17 years of age cannot respond for themselves, a family member must do this.)</p>	<p>NSCH 2007 (The interviewer begins by asking how many children live in the household and the age of each person under 18 years old living in the household. After the initial screening is completed, a single child is randomly selected from households with one or more children, ages 0-17.)</p>	<p>CHAMP 2010 NC-specific ~ 2000 RESPONDENTS</p>	<p>HINTS (2007 Mail Instrument) *HINTS is a biennial, cross-sectional sample of American adults. It is conducted by phone and in 2007, additionally by mail.</p>
